

The Ultimate**FTDX101D***The Legend Continues*Ref: E0067-18
Date: May 18, 2018

Dear Valued YAESU Distributors:

YAESU is excited to introduce a new **High-Class HF/50MHz 100W Transceiver – FTDX101D** and the first sample will be seen at Dayton Hamvention 2018. This information and the sample showed at Dayton are only the preliminary introduction, and any detailed information such as pricing and date of release is to be announced at a later date.

The new **FTDX101D** is utilizing the latest **SDR Technology** and classified as our High-End HF line, the FTDX series, which amateurs have come to know represents quality.

A few of the remarkable features of the new **FTDX101D** are;

- YAESU High-Class HF/ 50MHz 100W Transceiver
- SDR Technology and Waterfall Display
- Large Touch Panel precision color display
- Active Band Monitor enables rapid band changes with LED illumination of the operating band
- Independent control of the Main and Sub Bands allows effortless operation for the serious contester needing to move quickly between the amateur bands
- High-Q VC Tuning Front-End
- Main tuning dial for Main and Sub Band frequency control includes an Outer Dial for clarifier, VC tuning, fine tuning or custom settings

As you may recall, the name “101” comes from our legendary-popular best seller FT-101 series. With all its strength, YAESU produced this new HF transceiver to carry on the tradition of high quality known from the original 101 series. The new **FTDX101D** will be certain to satisfy the variety of many amateur radio enthusiasts’ demands and contribute to your business into the future. Once we are ready to accept your orders, we will make an official announcement. Please be ready for this forthcoming exciting new radio!

Thank you for your time in this matter, and we appreciate your continued support to YAESU.
